Week2 Class Presentation

- PowerPoint presentation for Class 2
- PDF export of Powerpoint
- non-graphical html version of presentation
- 1984 - Scene Index

Note:

There is a lag when clicking on a button to play a clip from the movie 1984. The lag is worse when a button is pressed from the PowerPoint presentation, because the movie needs to be reloaded each time. It is a little

better when play from 1984 - Scene Index. For class, I did tricks to be able to remove the lag, which relied on having a locally downloaded copy of the movie.

Rather than clicking buttons, you can position the copy of the movie by hand. The indicated time is for the version on archive.org of the movie *1984* released in 1984. This versions deletes the initial trademark Lion's raw. Add 9 seconds to the inidcated time for other versions.
