1:30 | yeah I I'm a sick man
1:42 | I'm a spiteful man I am an unattractive
1:50 | man I believe my liver is diseased
1:58 | however I know nothing at all about my disease and don't know for certain what ails me I don't consult a doctor for it and I never have though I have respect for
2:07 | medicine and doctors besides I'm extremely superstitious sufficiently so to respect medicine
2:14 | anyway hmm no I refuse to consult the doctor from spite now that you probably
2:21 | will not understand well I understand it though of course I can't explain who it is precisely I'm mortifying in this case by my spite I know better than anyone to
2:30 | buy all this I'm only injuring myself and no one else oh I've been going on like this for a long time some 40 years
2:37 | I used to be in the government service but I am no longer I was a spiteful official I was rude and I took pleasure
2:46 | in being so I did not take bribes you see so I was bound to find a recompense in that at least when petitioners used
2:55 | to come for information to the table of which i sat I used to grind my teeth at them and felt intense enjoyment whenever I succeeded in making anyone unhappy ah
3:02 | I almost did succeed for the most part they were all timid people of course they were petitioners but at the uppish
3:11 | ones there was one officer in particular I could not endure he simply would not be humble and clanked his sword at me in
3:18 | a most disgusting way I carried on a feud with him for some 18 months over that sword at last I got the better of
3:26 | him yes he left off clanking it haha but
3:35 | do you know ladies and gentlemen what was the chief point about my spite the whole point the real sting of it lay in the fact that continually even in the
3:43 | moment of a cutest spleen I was inwardly conscious with shame that I was not only not a spiteful person but not even an
3:53 | embittered man I was simply scaring sparrows at random brutal and amusing myself is it yeah I
4:01 | might foam at the mouth but bring me a doll to play with her give me a cup of tea with sugar in it maybe I should be appeased that I might even be genuinely
4:09 | touched no probably I should grind my teeth at myself afterwards and lie awake at night with shame for months after
4:16 | that was my way well now are you not fancying ladies and gentlemen that I am

4:23 | expressing remorse for something that I'm asking for your forgiveness for something oh I'm sure you are fancying that however I can assure you I do not
4:30 | care if you are it's not only that I could not become spiteful like I did not
4:37 | know how to become anything neither spiteful nor kind neither a reskin or an
4:45 | honest man neither a hero nor an insect now I'm living out my life in my corner
4:52 | taunting myself with a spiteful and useless consolation that an intelligent man cannot become anything seriously and
5:00 | it's only the fool who becomes anything you imagine no doubt ladies and
5:07 | gentlemen that I want to amuse you well you are mistaken in that - I am by no means such a mirthful person as you may imagine you think fit to ask me who I am
5:16 | well my answer is I am a Collegiate Assessor I was in the service that I
5:23 | might have something to eat but when last year a distant relation left me 6000 rubles in his will well I
5:31 | immediately retired from the service and settled down in my corner my room
5:37 | is a wretched horrid one on the outskirts of town my servant is presently an old country woman
5:45 | ill-natured from stupidity and moreover there's always a nasty smell about her I'm told the Petersburg climate is bad
5:53 | for me and with us with my small means it is very expensive to live in Petersburg I know that better than all
6:01 | these sage inexperienced counselors and monitors hahaha but I'm remaining in Petersburg yeah I'm not going away from Petersburg now
6:08 | I'm not going away because then is absolutely no matter whether I'm going
6:14 | the way or not going away but what can a decent man speak of with most pleasure
6:22 | answer of himself so I will talk about myself I want to tell you ladies and gentlemen why I could not even become an
6:29 | insect well I have many times tried to become an insect but I was not equal
6:40 | even to that toe I swear ladies and gentleman but to be too conscious is an illness now I am firmly persuaded that a great deal of
6:48 | consciousness every sort of consciousness is in fact a disease I stick to that let us leave that to for a minute tell
6:58 | me is why does it happen that at the very yes at the very moments when I'm most capable of feeling all that is
7:06 | sublime and beautiful I would not only feel but do such ugly things when I was most conscious they
7:13 | ought not to be committed the more conscious I was of goodness and all that was sublime and beautiful the more
7:20 | deeply I sank into my mire this was perhaps my normal condition but at first in the beginning oh what agony is I
7:28 | endured in the struggle I did not think it was the same with other people and all my life I hid this fact about myself
7:35 | as a secret I was ashamed I got to the point of feeling a sort of secret abnormal despicable enjoyment in
7:44 | returning home to my corner and some disgusting Petersburg night acutely conscious of that day I had committed some loathsome action again that what
7:53 | was done could never be undone and secretly inwardly nine it myself nine
8:00 | tearing and consuming myself until at last the bitterness turned into a sort of shameful accursed sweetness and at
8:07 | last in the positive real enjoyment into enjoyment yes I insist upon that ah well
8:19 | I've spoken to this because I keep wanting to know for a fact whether other people feel such enjoyment let me explain the enjoyment was from the intense
8:27 | consciousness of one's own degradation from feeling that one had reached the
8:33 | last barrier but there was no escape for you but you never could become a different man but even if time and faith were left to
8:42 | you to change into something different you would most likely not wish to change or if you did wish to even then you would do nothing because perhaps in reality there was nothing for you to change into and the consequently one was

8:51 | not only unable to change but could do absolutely nothing I've talked a lot of
9:03 | nonsense oh but what have I explained how is enjoyment in this to be explained
9:10 | I will get to the bottom of it hmm that is why I have taken up my pen I for instance have had moments when if I
9:19 | happen to be slapped in the face I should probably have been able to discover even in that a peculiar sense of enjoyment the enjoyment of course of
9:27 | despair and it is just in that cold abominable despair when that conscious
9:36 | burying oneself alive for grief in the underworld for 40 years and that acutely recognized it doubtful hopelessness of one's position in that hell of
9:46 | unsatisfied desires turn inward in that fever of oscillations of resolutions determined forever and then repented of
9:53 | again a minute later that the savour of that strange enjoyment of which I have spoken lies oh you will be finding
10:04 | enjoyment in a toothache next you cry with a laugh well well well even in a toothache there is enjoyment I had a toothache for a whole month I know there
10:12 | is in that case of course people are not spiteful in silence but moan oh and they
10:22 | are not candid moans they are malignant moans and the malignancy is the whole point the enjoyment of the sufferer finds expression in those moans if he
10:30 | did not feel enjoyment in them he would not moan oh ho this is a good example I will to explain imagine ladies and gentlemen
10:39 | an educated man suffering from toothache oh now in the second or third day of his
10:46 | attacks his moans become nasty disgustingly malignant and carry on for whole days and nights of course he knows
10:54 | he's doing himself no sort of good with his moans he's only lacerating himself and others for nothing he knows his whole family listen to him and loathing
11:02 | understanding that he might moan without the trills Oh and the flourishes oh that he's only
11:09 | amusing himself like that from ill humor from malignancy but therein lies the voluptuous pleasure as though he would
11:18 | say oh I'm worrying you I'm lacerating your hearts oh I'm
11:28 | keeping everyone in the house awake well stay awake then you to feel every minute that I have a toothache ah I'm not a
11:36 | hero to you now as I try and deceive before but simply a nasty person and in pasta oh well so be it then I'm glad
11:44 | that you see through me it is nasty for you to hear my despicable moans well let it be nasty here I'll let you have a nasty or flourish in a minute
11:52 | [Music]
12:02 | my Jess ladies and gentlemen or of course in bad taste but that is because
12:08 | I do not respect myself can a man a perception respect himself at all gum can a man who attempts to in find
12:17 | enjoyment in the very feeling of his own degradation possibly have a spark of respect for himself ladies and gentleman
12:26 | I consider myself an intelligent man because all my life I've neither been able to begin nor to finish anything
12:33 | from the battler harmless McLeish's
12:39 | babbler like all of us but what has to be done if the direct and sole vocation
12:48 | of every intelligent man is Babel that is the intentional pouring of water through a scene uh if only I'd done
12:58 | nothing simply from laziness oh heavens how I should have respected myself then I should have respected myself because I should at least have been capable of being lazy
13:07 | that would at least have been one quality as it were positive in me in which I could have believed in myself question what is he answer a sluggard Oh
13:17 | a very pleasant it would be to hear that of oneself it would mean I was positively defined it would mean there
13:24 | was something to say about me sluggard why it is a calling it is a vocation it is a career I do not jest

13:32 | it is so these are all golden dreams
13:41 | tell me this who was it first proclaim that man only does nasty
13:49 | things because he does not know his own interests that if he were enlightened if his eyes were open to his real normal
13:56 | interest man with a once ceased to do nasty things would at once become good and Noble because being enlightened and understanding his real advantage he
14:05 | would see his own advantage in the good and nothing else and we all know that not one man can consciously act against his own interests consequently ask so to say
14:12 | through necessity he would begin doing good the babe oh the pure innocent shot
14:26 | why in the first place when in all these thousands of years has it been a time when man acted only from his own
14:33 | interests what has to be done with the millions of facts that bear witness that man consciously that is fully understanding his real interest has left
14:42 | them in the background and rushed headlong on another path to me peril and danger compelled to this path by nobody and by nothing but as it were simply
14:50 | disliking the beaten track and his obstinately willfully struck out in another difficult absurd way seeking it
14:57 | almost in the darkness man everywhere at all times whoever he may be has preferred to act as he chose and not in
15:04 | the least as his reason an advantage dictated and one may choose what is contrary to one's interests and
15:11 | sometimes one positively ought what man wants is simply independent choice whatever that independence may cost and
15:20 | wherever it may lead ladies and gentlemen you must forgive me for being overly philosophical it is the result of
15:28 | 40 years underground just allow me to indulge my fancy you see ladies and
15:35 | gentlemen reason is an excellent thing there is no disputing that but reason is I think reason and satisfies only the
15:44 | rational side of man's nature well will is a manifestation of the whole life that is the whole human life including
15:52 | reason and all the impulses and although our life in this manifestation of it is often worthless yet it is life and not
16:00 | simply Oh extracting square roots I for instance quite naturally want to live in order to satisfy all my capacities for
16:08 | life not simply my capacity for reasoning that is not simply one twentieth of my capacity for life what does reason no reason only knows what it
16:17 | has succeeded in learning but you nature acts as a whole with everything that is in it consciously or
16:24 | unconsciously and even if it goes wrong it lives haha I suspect ladies and gentlemen that
16:34 | you were looking upon me with compassion you tell me again that an enlightened and developed man cannot consciously desire what is disadvantageous to
16:42 | himself that this could be proven mathematically well I thoroughly agree it can by mathematics but I repeat for
16:51 | the hundredth time there is one case one only one man may consciously purposely
16:57 | desire what is injurious to himself what is stupid very stupid simply in order to have the right to desire for himself
17:05 | even what is very stupid and not be bound by an obligation to desire only what is sensible for in any circumstances it preserves for him what
17:14 | is most precious and most important that is his individuality his personality Oh
17:21 | some you see maintain this really is the most precious thing for mankind choice can of course if it chooses be an
17:29 | agreement with reason especially if this be not abused and kept within bounds it is profitable and sometimes even praiseworthy but very often even most
17:37 | often choice is utterly and stubbornly opposed to reason and and do you know that this too is profitable and

17:44 | sometimes even praiseworthy in short one may say anything about the history of the world the only thing one can't say
17:51 | is that it's rational and the very word sticks in one's throat and a deed this is the odd thing that is continually happening they are continually turning
17:58 | up in life moral and rational persons hmm sages and lovers of humanity who make it their object to live all their
18:06 | lives as morally and this rationally as possible to be so to speak a light to their neighbors simply in order to show
18:13 | them that it is possible to live morally and rationally in this world and yet we all know those very persons sooner or
18:22 | later have been false to themselves playing some queer trick often an unseemly one simply in order to prove to
18:29 | themselves that men are still men and not the keys of a piano and that is not all even if man really
18:38 | were nothing but a piano key even if this were proved to him by natural science and mathematics even then he would not become reasonable that would purposely contrive some destruction some
18:46 | chaos purposely go mad Marat in order to be rid of reason and gain his point for the whole work of man really seems to consist in proving to
18:54 | himself every minute that he is a man and not a piano key ladies and gentlemen I am tormented by questions answer them
19:03 | for me you for instance want to cure men of their old habits and reform their will in accordance with science and good
19:11 | sense but how do you know not only that it is possible but also that it is
19:18 | desirable to reform man in that way and what leads you to the conclusion that man's inclinations need reforming in
19:25 | short how do you know that such a reformation will be a benefit to man and why are you so firmly so triumphantly
19:32 | convinced that only the normal and the positive in other words only what is conducive to welfare is for the advantage of man that does not man
19:41 | perhaps love something besides well-being perhaps he is just as fond of suffering perhaps suffering is just as great a
19:50 | benefit to him as well-being man is sometimes extraordinarily passionately in love with suffering and that is a
19:57 | fact as far as my personal opinion is concerned to care only for well-being that seems to be positively ill-bred
20:05 | whether it is good or bad it is sometimes very pleasant to to smash
20:12 | things oh you will say that perhaps it
20:22 | is not worth your trouble well in that case I can give you the same answer we are discussing things seriously but if you won't deign to give me your
20:30 | attention I will drop your acquaintance I can retreat to my underground hole I'm convinced we underground folk ought to
20:38 | be kept on a curb though we sit 40 years underground without speaking when we do come out into the light of day we talk and talk and talk
20:47 | the long and short of it is ladies and gentlemen it is better to do nothing better conscious inertia so hurrah for
20:57 | the underground oh but even now I'm lying I'm lying because I know it is not
21:06 | the underground which is better but something different quite different from which I am searching but which I cannot find oh oh then why have you written all
21:14 | this you will say to me well I ought to put you underground for 40 years without anything to do then come to you in your cellar and find out what stage you have
21:20 | reached how can a man be left underground for 40 years without anything to do isn't it shameful it's
21:29 | not humiliating but you see a fancy has occurred to me and I want to realize it
21:35 | at all costs let me explain every man has reminiscences which he would not tell to everyone but only to his friends
21:43 | he has other matters on his mind which he not reveal even to his friends but only to himself and that

in secret but
21:51 | there are other things which a man is afraid to tell even to himself and every decent man has a number of such things stored away in his mind the more decent
21:59 | he is the greater the number of such things anyway I have only lately determined to
22:06 | remember some of my early adventures till now I've always avoided them even with a certain uneasiness now when I'm
22:15 | not only recalling them but I've actually decided to write an account of them I want to try to experiment whether one can even with oneself be perfectly open and not take fright at the whole
22:23 | truth today for instance I am particularly oppressed by one memory of a distant past it came back vividly to
22:32 | my mind a few days ago and has remained haunting me like an annoying tune what can I get rid of and yet I must get rid of it somehow whoa I have hundreds of such
22:41 | reminiscences and at times one stands out from the hundred and oppresses me for some reason I believe that if I write it down I should get rid of it why
22:48 | not try besides I'm bored I never have anything to do writing will be a sort of work they say work makes a man
22:56 | kind-hearted and honest well here's a chance for me anyway
23:00 | hmm snow is falling today yellow and
23:08 | dingy fell yesterday too and a few days ago I fancy it as the wet snow that has reminded me of that incident which I
23:17 | cannot shake off now and so let it be a
23:22 | story I propose of the falling snow
23:31 | I at that time was only 24 my life even then was gloomy ill regulated in a
23:39 | solitary as that of a savage I made friends with no one had positively avoided talking they work in the office
23:48 | I never looked at anyone it was perfectly well aware of my companions looked upon me with a sort of loathing I sometimes wondered why I was that nobody
23:56 | except me fancy he was looked upon with a version one of the clerks said the most repulsive ly pockmarked face which look positively villainous I believe I
24:05 | should not have dared to look at anyone with such an unsightly countenance another had such a very dirty old uniform that there was always an
24:13 | unpleasant odor in his proximity yet not one of these gentlemen showed the slightest self-consciousness either about their their clothing or or the
24:20 | countenance their character in any way but I would have put up a looking bass if at the same time my face could have at least been thought strikingly
24:28 | intelligent I despised them all yet at the same time I was as it were afraid of
24:37 | them and dropped my eyes whenever I met anyone I was fearfully afraid of being seen being met and being recognized
24:44 | I used to wriggle along in the most unseemly fashion like an eel continually moving aside to make way for generals
24:51 | officers of the gods of hasar for ladies I was a mere fly and the eyes of the world nasty disgusting fly more
25:01 | intelligent more highly developed more refined in feeling than any of them of course but a fly continually making way
25:10 | for everyone insulted and injured by everyone but I had a means of escape which reconciled
25:18 | everything and that was in dreams of course I used to dream for months on end tucked away
25:26 | in my corner and at those moments I was triumphant over everyone everyone was of course forced to recognize my
25:33 | superiority and I forgave them all I was a poet and a grand gentleman I fell in
25:40 | love I came in for countless millions and immediately devoted them to humanity and at the same time I confess before all the people my shameful deeds which
25:48 | were of course not merely shameful but sublime and beautiful everyone would kiss me and weep what I should go
25:56 | barefoot and hungry preaching new ideas and Dara that's enough there'll be no end to it

26:04 | I can understand more than three months of dreaming without feeling an irresistible desire to plunge back into society to embrace my fellows and all
26:12 | mankind I had a number of school fellows indeed there were two or three left to whom I
26:20 | nodded in the street one of them was seeming off who had in no way been distinguished at school and was a very
26:27 | quiet and equable disposition he had a certain honesty and independence of character and we had shared some soulful
26:34 | moments that they had not lasted long and so on one occasion unable to endure
26:40 | my solitude I I sought him out climbing up to his fourth storey
26:47 | I was thinking that the man disliked me and it was a mistake to go and see him but as it always happened that such
26:56 | reflections impelled me as though purposely to put myself in a false position I went in it had been almost a
27:04 | year since I'd last seen siminoff I found two of my old school fellows with him they seemed to be discussing an important matter
27:12 | all of them scarcely took any notice of my entrance evidently they too looked upon me as something on the level of a common fly I knew of course they must
27:21 | despise me now for my lack of success in the service having let myself sink so low going about badly dressed and so on
27:29 | they were engaged in a conversation about a farewell dinner which they wanted to arrange for a fellow of theirs named Zia called an
27:38 | officer in the army who was going away to a distant province this vehicle had been at school with me as well I had
27:47 | hated him however even in the lower forms because he was a pretty and playful boy it was always bad at his lessons and got
27:55 | worse as he went on however he left with a good certificate as he had powerful interests during his last year at school
28:03 | he came in for an estate of 200 serfs and as almost all of us were poor he took up a swaggering tone among us I
28:12 | hated the abrupt self-confident tone of his voice his admiration of his own witticisms which are often frightfully
28:20 | stupid I hated the way he used to talk of his future conquests of women boast of the duels he would constantly be
28:28 | fighting and once declared that he would not leave a single village girl on his estate unnoticed that this was his sexual privilege and if the peasants
28:37 | dared to protest he would have them all flogged the bearded Rascals and so it
28:45 | was to this vehicle that my school fellows were going to give a dinner on his departure of seminars to visitors
28:52 | one was [___] a little fella with the face of a monkey and black kid who was always deriving everyone a very bitter
28:59 | enemy of mine from our days in the lower forms and vulgar imputed it swaggering fellow though of course he was a wretched little coward at heart
29:08 | seminars other visitor was adorable a tall young fellow in the army with a
29:15 | cold a fairly on his face no he worships success of every sort and was only capable of thinking of promotion he was some sort of distant
29:25 | relation desire coughs in this foolish as it seems gave him a certain importance well with seven rubles each
29:33 | 21 the rubles between the three Aleister we ought to be able to give a good dinner zero curve of course won't pay
29:40 | seminars chimed in and no no of course not since we are inviting him for fits
29:47 | came into can you imagine Svea cover let us pay alone hmm he will accept from delicacy but he will
29:54 | order half a dozen bottles of champagne do we meet happy dozen for the four of us so the three of us with Zika for the
30:03 | fourth it twenty-one rubles hotel jeopardy five o'clock tomorrow I interrupted uh how 21 rubles well

if you
30:11 | count me it will not be 21 but 28 rubles it seemed to me that to invite myself so unexpectedly would be positively graceful and they would look upon me
30:19 | with respect do you want to join too well why not I'm an old-school fellow of his - now I feel
30:28 | hurt that you have left me out where were we to find you yes you were never on good terms with severe cough well perhaps that's just my reason
30:37 | for wanting it now oh there's no making you out there with these refinements we'll put your name down so tomorrow a
30:45 | five o'clock the hotel jeopardy now what about the money yeah it will do if he wants to come so much Latium but it's a private thing between us friends it's not an official
30:53 | gathering we do not want to all perhaps and here - dorri above left the room arguing leaving me alone with siminoff
31:02 | yes tomorrow will you pay your subscription hour I just asked so as to
31:08 | know I flushed as I remember that I had owed seminar 15 rubles sir you will
31:16 | understand seminar that I could have no way of knowing when I came here I'm very much vexed that I have forgotten all right all right that doesn't matter you
31:23 | can pay tomorrow after the dinner I wanted to know please don't he looked at the door am i keeping you hmm
31:32 | oh yes to be truthful I have to go and see someone not far from here oh my goodness well why didn't you say so it's
31:39 | close by I'm not two paces away so a 5 o'clock in it punctually tomorrow and he
31:45 | was gone Oh what possessed me what
31:52 | possessed me to force myself upon him a scoundrel of people Ike that's vehicle no of course I'd better not go I'll send Simonov a note by tomorrow's post
32:01 | but what made me furious was that I knew that I would go that I would make a point of going more tactless and more
32:09 | unseemly my going would be the more certainly I would go but all I had was a trubel's I'd put aside seven of that
32:18 | from my servant EPEL own for his monthly wages not to pay him was impossible considering his character but I will
32:26 | talk more about that fellow that plague of mine another time that night I had the most hideous dreams of my miserable
32:34 | days at school I was sent there a forlorn silent boy troubled by doubt looking with savage distrust on everyone
32:43 | my school fellows met me with spiteful and merciless jives because I was not like any of them the coarseness revolted
32:51 | me but stupid faces they had even it's sixteen I was struck by the pettiness of their thoughts the stupidity of their
32:58 | pursuits their games their conversations I could not help considering them inferior to myself they understood nothing they had no idea
33:07 | of real life on the contrary they only respected success and this took rank for intelligence everything that was just
33:15 | but oppressed they laughed at heartlessly they were monstrously depraved to escape from their derision I made all the progress I could with my
33:23 | studies this impressed them they began to grasp that I had read books none of them could read and understood things of
33:30 | which they had not even heard they took a sarcastic view of it but were morally impressed especially as the teachers
33:37 | began to notice me on those grounds the mockery ceased but the hostility remained in the end I could not put up
33:44 | with it the craving for society for friends developed in me I attempted to get on friendly terms with some of my school fellows but somehow or other my
33:52 | intimacy with them was always strained and soon ended of itself first thing I did on leaving school was to break all

33:59 | ties curse my past and shake the dust from off my feet goodness knows why after all that I
34:07 | should go trudging off to seminars early the next morning I rouse myself
34:15 | and jumped outta bed with excitement as though some radical change in my life upcoming but i neva tably come that day the great thing i thought is not to be
34:24 | the first to arrive or they'll think I'm overjoyed at coming I polished my boots a second time and minutely examined my
34:34 | clothes everything was old worn and threadbare my uniform perhaps was tidy but I could not go out to dinner in
34:43 | uniform the worst of it was that on the knee of my trousers was a big yellow stain I was already shaking with fever of
34:51 | course the best thing would be not to go at all but that was the most impossible of all what's more even in the acutest paroxysm of cowardly fever i dreamed of
35:01 | getting the upper hand of dominating them carrying them away making them like me if only for my elevation of thought
35:08 | and unmistakable wit they would abandon Svea cough he would sit on one side silent and ashamed well I should crush
35:15 | him then perhaps we should be reconciled and drink to our everlasting friendship
35:22 | but what was most bitter and humiliating for me of all was that I knew that I needed nothing of all this really I did
35:31 | not really want to crush to subdue to attract them I did not care a straw really for the results even if I achieved it
35:36 | oh I prayed for the day to pass quickly at last my Richard little clock hissed
35:44 | five I seized my hat and tried not to look at Appl own who'd been expecting his month's wages he was about to speak when I slipped between him and the door
35:52 | jumped into a high class sledge giving the driver a half ruble note drove up in
35:57 | grand style to the Hotel de Perry I'd been certain the day before that I
36:05 | should be the first to arrive but not only were they not there but I had difficulty in finding our room after a
36:13 | good many questions I elicited from the waiter that the dinner had been ordered not for five but for six o'clock if
36:20 | they'd changed the dinner hour they ought to at least have let me know down servant began laying the table
36:29 | there's a great deal of noise even shouting in a room further away minions sir Mon chéri one could hear the
36:37 | laughter of a crowd of people nasty little shrieks in French oh no no no there were ladies at the dinner it was
36:46 | sickening in fact I rarely past more unpleasant moments so much so that when
36:53 | they did arrive altogether punctually at 6:00 I was overjoyed to see them as though they were my saviors and even forgot that it was incumbent upon me to
37:00 | show resentment his vehicle entered first to their laughter but I noting my presence drew himself up and addressed me with a slight rather jaunty Bend of
37:09 | the waist I was surprised to hear of your desire to join us you and I seem to have seen nothing of one another you
37:18 | fight shy of us you shouldn't we're not such terrible people as you think well I'm glad to renew our acquaintance have
37:28 | you been waiting long well I arrived at five o'clock as you told me yesterday Trudeau you both turned to seminar didn't you little know we had changed
37:36 | the hour I know I didn't I forgot to excuse me I must order the hors d'oeuvres so you've been waiting a whole
37:44 | hour oh you poor fellow the fitch considered it isn't funny at all it wasn't my fault
37:52 | they've neglected to let me know it was was simply absurd not only absurd but simply rudeness oh but how could
37:59 | siminoff cool if it clicked like that haven't played on me [___] I showed him but you should have ordered something for yourself simply asked for dinner

38:08 | without waiting for us like I might have done that without your permission if I waited there it was because
38:15 | siminoff returned gentlemen everything is ready now I can answer for the champagne it is capital e frozen
38:23 | you see I didn't know your address we always like to look for you tell me are
38:30 | you in a government office does he want me to throw a bottle at his head yes yes I'm in the assessor's office No
38:38 | and have you a good birth I say what made you want to leave your original job
38:48 | what made me was that I wanted to leave my original job for Fitch can go far and
38:56 | their enumeration what remuneration I mean your salary why are you cross-examining me but I
39:03 | told him my salary no it's not very handsome yes you can't afford to dine in cafes on that by my way of thinking it
39:11 | is very poor and how thin you grow how you've changed oh he blesses My dear sir I am NOT
39:19 | blushing to you here I'm dining here at this cafe that my own expense not other people's note that mr. Fitch kid hahaha
39:26 | everyone here dining at his own expense or you intend to show off your intelligence I suppose but don't disturb yourself it would be quite at a place
39:35 | why are you clacking away like that my good sir have you gone out of your wits enough gentleman enough how stupid it is
39:44 | it really is stupid we have met here a company of friends for a farewell dinner to a companion and you carry on an altercation you invited yourself to join
39:53 | us so don't disturb the general harmony gentlemen it is out of place better let
40:02 | me tell you how I nearly got married the day before yesterday and then followed a
40:11 | burlesque narrative of how severe Cobb had almost been married two days before there was not a word about the marriage however but the story was adorned with generals
40:18 | and Connor's and kammo junk as well severe cough took the lead among them it was greeted with approving laughter Oh
40:26 | which can positively squeal these are not the people for me what a fool I've
40:35 | made it myself before them these brutes imagine they're doing me and honor and letting me sit down with them they don't understand it's an honor to them and not
40:42 | to me I have grown thinner my clothes down my trousers this vehicle of noticed
40:50 | the yellow stain on my knee as soon as I came in no what's the use I must get up at once this very minute take my hat and simply
40:58 | go without a word with contempt tomorrow I can send a challenge scoundrels damn it as though I cared about the seven rubles famine I don't care about
41:06 | the seven rubles I'll I'll go this minute of course I remained and drank sherry
41:14 | and the feet in my discomfiture being unaccustomed to it I was quickly
41:21 | affected my annoyance increased is the wine went to my head how long to insult them all in the most flagrant manner and
41:30 | then go away to seize the moment and show them what I could do so that they would say oh no he is absurd and and in
41:39 | fact damn them all but they seem to have forgotten me altogether huh they were
41:47 | noisy vociferous cheerful severe cough was talking of some exuberant lady who made at last lead on to declaring her
41:55 | love and how he had been helped in this affair by an intimate friend of his a prince Kolya an officer in the huzzah
42:03 | sue has three thousand serves i interject it Oh and yet this Prince Kolya who has three
42:11 | thousand surfaces not put in an appearance here tonight to see you off has he you or don't go ready you're
42:21 | healthier cough and good luck on the journey to old times to our future haha I refuse to raise my glass what
42:29 | aren't you going to drink it I want to make a speech separately on my own account and then I'll drink it mr.
42:35 | trudeau you both spiteful brute silence and now for a display of with mr.

42:48 | lieutenant's vehicle I want to tell you that I hate phrases phrase mongers and
42:57 | men in courses that is the first point and there is a second point to follow it second point is I hate rye Baldry
43:06 | and wry bold talkers especially ride bald talkers the third point I love
43:13 | justice truth and honesty I I loved thought miss yours vehicle kind of true
43:20 | comradeship and an equal footing enough I love but however why not I drink your
43:31 | health to miss yours vehicle seduce this star cast seeing girls huh shoot the enemies of the fatherland and to your health
43:40 | miss your vehicle but I'm very much
43:45 | obliged to you then the fellow ho ho he wants a punch in the face for that we ought to turn him out not a word not a
43:54 | movement gentlemen I thank you all but I can show him for myself how much value I attached to his words forfeit skin
44:02 | snickered again mr. forfeit skin you will give me satisfaction tomorrow for
44:09 | your words just now endure you mean leave him alone he's quite drunk I'll
44:17 | never forgive myself for letting him join us no was the time to throw a bottle at their heads I picked up a
44:25 | bottle and filled my glass no I'd better
44:33 | sit on to the end they'd be pleased if I went away nothing will induce me to go I'll go on sitting here and drinking to the end on purpose there's a sign that I
44:41 | don't think of them the slightest consequence I'll go on sitting here and drinking because this is a public house I'd paid my entrance money I'll sit here
44:49 | and drink because I look upon them as pawns in animate pawns yeah I'll sit here and drinking and and
44:56 | and sing if I want to yes sing mm-hmm
45:06 | but I did not sing I simply tried not to look at any of them there's some most unconcerned attitudes and waited
45:14 | impatiently for them to speak first but alas they did not address me how I wished I wished at that moment to be reconciled
45:21 | with them it struck eight at last nine they moved from the table to the sofa this vehicle stretched himself and
45:29 | allowed to put one foot on a round table they listened to him almost with reverence it was evident they were fond
45:35 | of him what for what for I wondered from time to time they were moved to drunken
45:43 | enthusiasm kissed each other ah they talked to the caucuses of the nature of true passion of snug births in the
45:51 | service of an income of a Nizam in Pulaski who none of them knew personally rejoiced in the largeness of it the
45:58 | extraordinary grace and beauty of princess you've got food none of them had ever seen ah and then it came to
46:05 | Shakespeare's being immortal smiled contemptuously and walked up and down on the other side of the room from the sofa to the table I tried my very odd Mo's to
46:14 | show them that I could do without them but I purposely made a noise with my boots thumping my heels but it was all
46:24 | in vain they paid no attention I walked up and down in front of them from eight o'clock to eleven from the table to the
46:32 | stove and back again I walk up and down to please myself and no one can but then me the waiter who came into the room
46:40 | stopped from time to time to look at me oh I was somewhat giddy from turning around so often in at moments it seemed to me I was in delirium during those
46:49 | three hours I was three times soaked with sweat and try again at times with
46:56 | an intense acute pang I was stabbed to the heart by the thought that ten years twenty years forty years would pass and that even in 40 years I would remember
47:04 | with loathing and humiliation please filthiest most ludicrous most awful moments of my life no one

could have
47:12 | gone out of his way to degrade himself more shamelessly and I fully realized it fully and you know I went on pacing up and down from the table to the stove oh
47:22 | if you only knew what thoughts and feelings I have how cultured I am but my
47:29 | enemies behaved as though I was not in the room once only once they turned toward me just when his vehicle was talking about Shakespeare and I I
47:37 | suddenly gave a contemptuous laugh ha ha ha ha but nothing came of it they said
47:46 | nothing and two minutes later ceased to notice me again the clock struck eleven friends he let us be off now yeah see
47:55 | you cough I beg your pardon for fits can yours to everyone's everyone's eye I've
48:02 | insulted you all duel is not in your nature old man no it's not the duel I'm afraid of a [___] chicken I'm ready to
48:10 | fight you tomorrow after we have reconciled in fact I insist upon it and you cannot refuse I want to show you I'm not afraid of a duel you shall fire
48:18 | first and I shall fire into the air he's comforting himself no he's simply raving but let us pass
48:25 | why are you borrowing our way what do you want I ask for your friendship it's your cover I have insulted you
48:33 | insulted you insulted me I understand so
48:41 | that you never under any circumstances could possibly insult me that's enough for you out of our way
48:50 | Olympia is mine friends ah I stood it so
48:56 | spat upon the party went noisily out of the room but siminoff remained a hind to tip the waiters siminoff give me seven
49:04 | rubles you don't mean you're coming with us yes yes but I have no money seminoff I saw you had money why do you
49:10 | refuse me am i a scoundrel beware of accusing me if you knew why I am asking
49:17 | what my whole future my whole plans depend upon it if you have no sense of shame and he ran
49:24 | to overtake them I was left for a moment
49:29 | alone disorder the remains of dinner a broken wine glass on the floor spilt
49:37 | wine cigarette ends fumes of drink and delirium in my brain agonizing misery in my heart
49:46 | I will pursue them either they shall all go down on their knees and beg for my friendship or or I will give this
49:56 | vehicle a slap in the face I ran headlong downstairs there was no trace to be seen of them that made no difference I knew where they had gone
50:04 | that the steps was a driver on a rough peasant coat i tumbled into his sledge like a sack go and so I was bound to
50:13 | slap your car's face it was my duty and it was settled go drive a tug to the reins as soon as I go in I'll give it to
50:20 | him hard to say a few words by way of preface no no I'll simply go in and I'll give it to him they'll all be sitting in the drawing
50:28 | room I'll post via cars ears no no no no better one here pull him by it round the room ha ha ha maybe they will all begin
50:36 | beating me and kick me out no matter the initiative will be mine and by the laws of Honor that is everything he will be branded and cannot wipe off the slap by
50:45 | any blows by nothing but a duel he'll be forced to fight ha ha ha let them beat me let them grateful wretches trudolyubov
50:54 | will beat me the hardest he's so strong no couldn't be sure to tug at my hair no matter no matter that's what I'm going
51:03 | for block kids will be forced at last to see the tragedy of it all when they dragged me to the door I shall call out to them that in reality they are not worth my
51:11 | little finger get on driver get on we do it at daybreak ha that's a settled thing but we're can I get pistols nonsense so
51:20 | I'll get my salary in advance and buy them no hunt powder and bullets no that's the second business but where am I to get a second I have no friends oh

51:28 | oh wouldn't it be better to go straight home like God my God why did I invite
51:35 | myself to this dinner yesterday no no no that's impossible am i walking up and down for 2 hours
51:42 | from the table to the stove no no they and no one else must pay for my walking up and down they must wipe out this
51:48 | dishonor drive on what if severe cough is so contemptuous that he refuses to fight a duel I'm sure - but and in that
51:56 | case I'll show them I'll turn up at the posting station when he's setting off tomorrow I'll catch him by the leg now I'll pull off his coat when he gets out of the
52:03 | carriage I'll I'll get my teeth into his hand I'll bite him huh you see with lanes you can drive a desperate man too he may hit me on the head and they may
52:11 | be labor me from behind but I will shout to the assembled multitude so ah look at this young puppy who's driving off to
52:18 | captivate this sarcassian girls after letting me spit in his face huh of course after that everything will be
52:26 | over I should be arrested I should be tried dismissed from the service sent to prison sent to Siberia
52:35 | never might in 15 years when they let me out of prison I will trudge off to him a beggar in rags I shall find him in some provincial
52:43 | town he'll be married and happy he'll have a grown-up daughter I shall say to him look monster at my hollow cheeks in my rags I've lost everything
52:52 | my career happiness art science the woman I loved and all through you here are pistols
52:59 | I have come to discharge my pistol and and I forgive you
53:11 | then I shall fire into the air bang and he shall hear nothing more of me and
53:21 | although once I felt horribly ashamed so ashamed that I stopped the driver I got out of the sledge and stood still in the
53:28 | snow in the middle of the street what was I to do I couldn't go on there it was stupid but I could not leave things as they were
53:37 | because then it would seem as though heavens how could I leave things after
53:41 | such insult no it is ordained it is fate
53:49 | right on right on I forgot everything else for I had finally decided on the slap and felt with horror that it was going to happen now at once and that no
53:57 | force could stop me blast me arrived I ran up the steps and began knocking and kicking at the door
54:05 | the door was open quickly as though they knew I was coming it was one of those millinery establishments which were abolished by the police a good time ago
54:12 | by day it really was a shot but at night if one had an introduction one might visit for other purposes I walked
54:21 | rapidly through the dark shop and into the familiar drawing-room where there was only one candle burning and stood still with amazement there was no one
54:29 | there before me was standing the madam herself who had seen me before I felt as
54:38 | though I've been saved from death and it was joyfully all over oh I should have
54:47 | given that slap I should certainly certainly have given it but but now they were not here everything had vanished
54:56 | and had changed a girl came in fresh young with a rather
55:06 | pale face straight dark eyebrows and grave wandering eyes there's something simple and good-natured in her face but
55:13 | something strangely grave I'm sure that this stood in her way here and not one of those fellows had noticed her she
55:20 | could not however have been called a beauty though she was tall strong looking and well-built she was very
55:28 | simply dressed something loathsome stirred within me I went straight up to
55:37 | her a chance to look in the glass my face struck me as revolting in the extreme
55:45 | tale angry object no matter I'm glad of
55:54 | it I thought I'm glad that I saw seem repulsive to her I like that
56:18 | yes
56:58 | somewhere behind a screen at clock struck two I'm not gonna sleep it lying

57:06 | half-conscious it was almost completely dark in the narrow cramped low-pitched room candolyn
57:16 | that was burning on the table was going out and gave a faint flicker from time to time in a few minutes there would be complete darkness my head was full of
57:26 | fumes suddenly I saw beside me two
57:32 | wide-open eyes scrutinizing me curiously and persistently there was something unnatural in those two eyes and I recall
57:42 | that during those two hours I had not said a single word to this creature in fact the silence it for some reason
57:49 | gratified me now I was suddenly revolted by the hideous idea of Vice for a long
58:00 | time we gazed at each other like that but her expression never changed and until it last I felt uncomfortable
58:16 | what is your name Liza what weather huh
58:24 | and then the snow it's it's disgusting where are you from
58:31 | Riga are you German Oh Russian hmm have you been here long in this house only a
58:40 | fortnight I see the candle went out I could no longer distinguish your face if you were father and mother well where
58:48 | are they what are they nothing why what class are they oh tradespeople and you've always lived
58:57 | with them how old are you 20 and why did you leave them for no reason
59:05 | I see she was silent I thought sick I
59:16 | I saw them carrying a coffin out yesterday in the Haymarket they immediately dropped it they were bringing it up out of a cellar well not from a cellar but a basement you know
59:24 | down below a house of your fame it's filthy all around eggshells litter the
59:32 | stench cast loathesome she was a girl like you she died of consumption you mean to say
59:42 | you don't mind how you died she was in debt to her madam but went on earning money for up to the end some sledge
59:49 | drivers were standing a by talking about her to some soldiers no doubt they knew her they were laughing never go into a
59:55 | tavern to drink to her memory now you
1:00:01 | are young pretty fresh you you fetch a high price but after another year of this life you will be very different
1:00:10 | you will be worth less you'll go from here to someplace lower another house a
1:00:17 | year later to a third lower and lower and in seven years you may come to a basement in the Haymarket there you may
1:00:25 | die makes one sorry sorry for life have
1:00:36 | you been engaged to be married huh no I'm not cross-examining you what is it to me it's simply that I felt sorry for
1:00:44 | you do you think you're on the right path well that's what's wrong you don't think realize it well there's still time there
1:00:53 | is still time yeah you're still young good-looking you might love be married be happy no no of course not all married
1:01:00 | women are happy of course but it's much better than a life here infinitely better besides would love one can live
1:01:08 | even without happiness here even in sorrow life is sweet life is sweet however one lives but here what is there
1:01:16 | but paulus no never mind my coming here I'm not an example for you I'm perhaps worse than
1:01:24 | you are I was drunk when I came here besides a man is no example for a woman it's different I may degrade and defile myself but I'm not anyone's slave I come
1:01:33 | and I go and that's the end of it I shake myself off and I am a different man but you are a slave from the start
1:01:41 | yes a slave you give up everything your whole freedom if you want to break your chains afterwards you won't be able to
1:01:48 | it is an accursed bondage I know like selling your soul to the devil here you
1:01:56 | and I came together just now and did not say one word to one another is that is that loving afterwards you you stare to

1:02:03 | me like a wild creature and I at you is that loving is that how one human being should meet another it's hideous that's what it is why have you come here you
1:02:13 | don't know well I'm convinced someone is wrong to you and that you are more sinned against than sinning of course I
1:02:21 | know nothing of your story but it's not likely a girl like you has come here of her own inclination see lies I will tell you about myself if I had had a home
1:02:30 | from childhood I shouldn't be what I am today I often think that however bad it may be at home anyway they are your father and mother and not enemies
1:02:38 | strangers I grew up without a home perhaps that's why I've turned out so I'm feeling I knew a father who was a
1:02:48 | cold austere man but he used to go down in his hands and knees to his daughter he used to kiss her hands and feet he couldn't make enough of her really when
1:02:56 | when she danced at parties he would stand for five hours at a stretch gazing at her he was mad over her I understand that she would fall asleep tired at
1:03:04 | night and and he would wait to to kiss her and asleep and make the sign of the Cross over her he was stingy with everyone else but he would spend his last penny for her
1:03:12 | giving her expensive presents and it was his greatest delight when she was pleased with what he gave her of course some families are glad to sell their
1:03:21 | daughters rather than marrying them honorably such a thing Eliza happens and those are curse in families where there's neither love nor God and where there's no love there's no sense either
1:03:29 | there are such families it's true but I'm not speaking of them you must have seen wickedness in your own family mm-hmm
1:03:37 | truly you must have been unlucky you see lies a man is fond of reckoning up his
1:03:44 | troubles but he does not count his Joy's if he counted them up is he odd he would see that every lot has enough happiness
1:03:51 | provided for it and what if all goes well with the family if the blessing of God is upon it if the
1:03:58 | husband is a good one loves you cherishes you there's happiness in such a family even sometimes there's happiness in the midst of sorrow and
1:04:07 | indeed sorrow is everywhere if you marry you will find out for yourself but think of the first years of married life with
1:04:15 | one you love oh what happiness what happiness is sometimes isn't it and if the husband is kind and and
1:04:23 | straightforward why should not love last the first phase of married love will pass it is true but then there will come a love that is better still then there
1:04:30 | will be a union of souls they they will have everything in common there will be no secrets between them think of your
1:04:38 | present life I mean you are young attractive nice with the soul and and
1:04:45 | feeling it you know as soon as I came to myself just now I felt that once sick at being here with you one can only come here when one is drunk
1:04:54 | but if you were anywhere else living as good people live I should perhaps be more than attracted to you I I should fall in love with you I should be glad
1:05:03 | of a look from you little in a word I should hang about your door I should go down on my knees to you I should think of viewers might be truths and think it
1:05:11 | an honor to be allowed to I should not dare to have an impure thought about you here you see I know I only have to
1:05:20 | whistle and you must come to me whether you like it or not now I don't consult your wishes but you mind the lowest labor hires himself out as a workman but
1:05:29 | doesn't make a slave of himself besides he knows he will be free again but when are you free only think what you're
1:05:35 | giving up here love that's everything it's it's a priceless diamond it's it's
1:05:45 | a mains I'm sure a man would be ready to give up his soul to face death to gain that love but how much is your love worth now how
1:05:54 | much does your love worth now you've sold yourself body and soul do you understand and there's no greater insult to a girl than that uh-oh or you don't believe it is so

1:06:02 | hateful go look for yourself sometime with your own eyes once on New Year's Day I saw a woman like you turned out in the frost as a joke because she'd been crying so much and they shut the door
1:06:11 | behind her at nine o'clock in the morning she was already drunk disheveled half naked with a black eye had covered with bruises blood was
1:06:19 | trickling from a nose of teeth she was crying and wailing some cabman had just given her a drubbing perhaps she was
1:06:26 | once like you proud ready to take offense not like the others perhaps she once looked like a queen and knew what
1:06:35 | happiness was in store for the man who should love her and whom she should love do you see how it ended and suppose at
1:06:42 | that very minute she recalled the pure early days at her father's house when she used to go to school when the neighbor's son watched for her along the way declaring that he would love her as
1:06:50 | long as he lived that he would devote his life to her that make vows to love one another forever and be married as soon as they were grown up don't doubt
1:06:58 | it that's how it is you've sold your soul and what's more you owe money so you dare and say a word and when you are dying all will abandon you all will turn
1:07:07 | away from you for then there'll be nothing to get from you what's more they'll reproach you for come burring the place for being so long over dying however you beg you won't get
1:07:16 | a drink of water without abuse the thrust you dying into the filthiest corner of the cellar and the damp and darkness what were your thoughts be
1:07:24 | lying there alone when you died strange hands will lay you out grumbling in a patient no one will bless you no one will sigh for you they'll
1:07:32 | only want to get rid of you as soon as maybe but buy a cheap coffin and take it to the grave as they did that poor woman in the hay market in the grave
1:07:41 | sleet filth wet snow there your memory on earth will end other women have
1:07:48 | children to come to their graves fathers husband well for you another tear no sigh no remembrance no one in the whole world will ever come to you your name
1:07:56 | will vanish from the face of the earth as though you had never existed Neven born at all nothing but filth and mud
1:08:03 | however you knock on your coffin lid at night when the debtor eyes however you cry let me out kind people deliver the world
1:08:10 | again my life has been no life at all my life has been thrown away like a dish-clout
1:08:16 | it was drunk away in the tavern let me out kind people to live in the world again and I worked myself up to such a
1:08:25 | pitch that I began to have a lump in my throat myself and all that once I
1:08:31 | stopped I felt for some time that I was turning her soul upside down and rending her heart and the more convinced I
1:08:39 | wasn't the more eagerly I desired to gain my object is quickly and as effectually as possible it was the exercise of my skill that
1:08:46 | carried me away but now I haven't seen my effect I was suddenly panic-stricken never before had I witnessed such
1:08:54 | despair she was lying on her face thrusting her face into the pillow and clutching it with both hands her heart was being torn her her
1:09:01 | youthful body was shuddering all over as though in convulsions suppressed sobs rent her bosom and suddenly burst out and weeping and wailing then she pressed
1:09:10 | closer into the pillow she did not want anyone here not a living soul to know of her anguish and her tears I I began
1:09:19 | fumbling in the dark trying hurriedly to go eliza sat up in bed with a contorted face and looked at me almost senselessly i sat down beside her and took her hands
1:09:28 | Lysa my dear I was wrong forgive me she squeezed my hand in her finger so
1:09:36 | tightly I I thought I was saying the wrong thing this is my address lyza come to me you will come third head
1:09:45 | remain bowed but now I am going goodbye
1:09:52 | until we meet again wait a minute she

1:09:59 | said she ran off evidently she wanted to show me something she came back a minute later with a piece of paper I unfolded
1:10:08 | it it was a letter from a medical student of someone of that sort of a love letter when I'd finished reading it she explained to me that she'd been to a
1:10:16 | dance somewhere at a private house a family of very nice people who knew nothing nothing whatsoever for she had only come here so lately and and it all
1:10:24 | happened and she hadn't made up her mind to stay and was certainly going away as soon as she had paid her debt and had that party had been the student to a
1:10:32 | dance with her all the evening he had talked to her and it turned out that he had known her from the old days in Riga
1:10:39 | when he was a child they had played together but a very long time ago and he knew her parents but about this he knew
1:10:48 | nothing nothing whatsoever and no no suspicions and the day after the dance three days ago he had sent her that letter through the friend with whom
1:10:56 | she'd gone to the party and well that was all the poor girl was keeping that
1:11:03 | student's letter as a precious treasure and I'd run to fetch it her only treasure because she did not want me to go away without knowing that she too was
1:11:11 | honestly and genuinely loved that she too was addressed respectfully no doubt that letter was destined to lie in her
1:11:20 | box and lead to nothing nevertheless I'm certain she would keep it all her life as a precious treasure as her pride and justification and now
1:11:29 | at such a minute she had thought of that letter and brought it to me with naive pride to raise herself in my eyes that I
1:11:35 | might see that I too might think well of her I said nothing
1:11:44 | press their hands and one out
1:11:59 | waking up the following morning I was amazed at my sentimentality why did I
1:12:06 | thrust my headdress upon her what if she comes it's horrid that she should see how I live
1:12:13 | yesterday I seems such a hero to her well now it's horrid that I'd let myself go so the room looks like a beggar's
1:12:20 | tahun I brought myself to go out to dinner in such a suit and my dressing gown in such tatters on my servant app
1:12:28 | alone the Beast will be sure to insult her he will fasten upon her in order to be rude to me I of course shall be
1:12:37 | panic-stricken as usual I should like in bowing and scraping pulling my dress of ground around me I began smiling and telling lies oh the beastliness and to
1:12:47 | put on at this honest lying mask again why dishonest h-how'd astonished I was
1:12:55 | speaking sincerely last night I remember there was real feeling in me too what I wanted was to excite an honorable
1:13:02 | feeling in her her crying was a good thing it would have a good effect but I could not feel at ease one day past
1:13:12 | another she did not come and I began to grow calmer yeah I even began dreaming
1:13:19 | rather sweetly I for instance become the salvation of Liza simply through her coming to me am i talking to her I
1:13:26 | develop her educator finally I noticed that she loves me loves me passionately
1:13:33 | I pretend not to understand it just through effect perhaps at last transfigured trembling and sobbing she
1:13:42 | flings herself at my feet and says that I am her Savior that she loves me better than anything in the world I am amazed
1:13:49 | but Liza can you not see that I saw it all i divined it but I did not dare approach you first because I had an
1:13:57 | influence over you and I was afraid that you might force yourself from gratitude to respond to my love to to rouse in your heart a feeling which was perhaps
1:14:04 | absent and I did not wish that because though it would be tyranny it it would be indelicate god
1:14:11 | damn it all she will come she's sure to come there was a good thing in fact that Apple own distracted

my attention at
1:14:19 | that time by his rudeness he drove me beyond all patience he was the bane of my life the curse
1:14:28 | laid upon me by Providence we had been squabbling continually for years and I hated him my god how I hated him I believed I had never hated anyone in my
1:14:36 | life as I hated him he was an elderly dignified man who worked part of his time as a tailor but for some unknown
1:14:44 | reason he despised me beyond all measure and looked down upon me insufferably though indeed he looked down upon everyone simply to glance at that flaxen
1:14:54 | smoothly brushed head at that tuft of hair he combed up on his forehead and oiled with sunflower oil and that dignified mouth compressed into the
1:15:02 | shape of a letter he made one feel one was confronting a man who never doubted of himself he was in love with every button on his coat every nail on his
1:15:10 | fingers absolutely in love with him and he looked it in his behavior for me he was a perfect tyrant he spoke very little to me and if he chanced to glance
1:15:19 | at me he gave me a firm majestically self-confident and invariably ironical look which sometimes drove me to fury
1:15:26 | there could be no doubt he looked down upon me as the greatest fool on earth but for some reason agreed to do absolutely nothing for me for seven
1:15:34 | rubles a month but I could not get rid of him It was as though he were chemically combined with my existence my lodging
1:15:43 | was my private solitude my shell my cave in which I concealed myself from all mankind a nap alone seemed to me for some reason an integral part of that
1:15:51 | flat and I I could not turn him away but I was so exasperated that I made up my mind for some reason and with some
1:15:58 | object to punish him and to not pay him his wages for a fortnight in order to teach him not to give himself heirs with me and to show them that if I liked I go
1:16:07 | withhold his wages because I was the master and it was up from me to decide because he had been disrespectful and rude but if you were to ask respectfully
1:16:15 | I might be softened didn't give it to him otherwise he might wait another fortnight another three weeks a whole month hahaha
1:16:24 | but angry as I was yet he got the better of me it began as it always did apropos of nothing he would walk into my
1:16:32 | room and fix upon the Astaire severe utterly contemptuous if I asked him what
1:16:40 | he wanted he would give no answer but continue staring at me persistently for some seconds and then deliberately turn
1:16:46 | round and go back to his room two hours later he would return and again stare at me in the same way and so he'd stare at
1:16:55 | one another for two minutes at which point he would suddenly begin sighing long deep sighs there's no measuring by
1:17:06 | them the depths of my moral degradation this time our staring manoeuvres had scarcely begun when I lost my temper and
1:17:14 | flew at him in a fury how dare you come to look at me like that without being sent for answer you began to leave stay
1:17:21 | don't stir there and so now what did you come in to look at hmm I'll tell you why you came here
1:17:27 | you see I don't give you your wages and and you are so proud that you don't want to bow down and ask for it so you come to punish me with your stupid stares to
1:17:36 | worry me and you have no suspicion how stupid it is stupid stupid stupid stupid
1:17:43 | look here's the money do you see here's the seven rubles complete but you are not going to have it you are not going
1:17:51 | to have it until you bow down respectfully and beg my pardon do you hear do it or else you can't imagine
1:17:59 | what will happen beg beg but just as I
1:18:06 | was about to strike him the passage door opens slowly a figure entered stopped short and stared i nearly swooned with

1:18:15 | shame and rushed to my study two minutes later a pallone knocks softly and announced that there was a woman to see
1:18:21 | me I opened the door and there stood Eliza the clock struck eleven into my
1:18:30 | house come bold and free it's rightful mistress there to be after
1:18:39 | standing over us for a moment a pallone went away I turned to Liza sit down you have found me in a strange
1:18:49 | position Liza no no no don't imagine anything I'm not ashamed of my poverty on the contrary I look with pride on my poverty
1:18:57 | I am poor but honorable one can be poor and honorable however would you like tea
1:19:07 | wait a minute I crossed the hall hello here are your wages you see I give them
1:19:16 | to you but for that you must come to my rescue bring me tea and it doesn't rusts if you won't go you'll make me a miserable man
1:19:24 | you don't know what this woman is this this this is everything you may be imagining something but you don't know
1:19:32 | what that woman is a pallone at first look the scan said the money without paying the slightest attention to me or
1:19:38 | making any answer but thank God he must have been moved to pity as he deliberately pushed back his chair
1:19:45 | counted the money and left the room I
1:19:50 | returned to Liza Tahoe I will kill him kill him health you don't know what that
1:19:58 | man is to me Liza he's he's my torturer he he's gone now to fetch tea he why
1:20:07 | have you come to me tell me that please why have you come answer answer
1:20:18 | I'll tell you my good girl why you have come you've come because I talk sentimental stuff to you then so now you're soft as butter and longing for
1:20:26 | fine sentiments again so you may as well know that I was laughing at you today
1:20:34 | and I'm laughing at you now why are you shuddering I was laughing at
1:20:42 | you I'd been insulted just before at dinner by the fellows that came before me I came to you meaning to thrash one of
1:20:49 | them an officer I didn't succeed I didn't find him I had to avenge the insult on someone to get back my own again you turned up i vented my spleen on you and I laughed at
1:20:58 | you had been humiliated so I wanted to humiliate I've been treated like a rag so I wanted to show my power that's what
1:21:05 | it was when you imagined that I had come there on purpose to save you yes yes you imagined that you imagined that save you
1:21:13 | save you from what perhaps I'm worse than you myself why didn't you throw it in my teeth when I was giving you that
1:21:21 | sermon power power was what I wanted then sport was what I wanted I wanted to wring out your tears your humiliation
1:21:29 | your hysteria that's what I wanted then of course I couldn't keep it up then because I am a wretched creature was frightened and the devil knows why I
1:21:36 | gave you my address in my folly afterwards before I got home I was cursing and swearing at you about that address I hated you already because of
1:21:44 | the lies I told you because I only liked playing with words only dreaming you know what I really want so you should
1:21:53 | all go to hell that's what I want I want peace yes I would sell the whole world
1:22:00 | for a farthing straight off so long as I was left in peace is the world to go to
1:22:07 | pot or am I to go without my tea I say the whole world may go to pot for me so long as they always get my tea do you
1:22:14 | know that or not anyway I know that I am a blanket scoundrel and egoist sluggard
1:22:22 | here I have been shuddering for the past three days at the thought of your coming you know what is worried me particular these three days that I posed as such a
1:22:30 | hero to you and now you would see me in this Richard torn dressing-gown beggarly loathesome I told you just now I'm not ashamed of my
1:22:38 | poverty so you may as well know I am ashamed of it more ashamed of it than anything more afraid

of it then a being
1:22:46 | found out if I were a thief because I am as vain as though I had been skinned in the very air blowing on me hurt surely
1:22:55 | by now you must realize that I shall never forgive you for having found me in this wretched dressing-gown just as I was flying a nap alone like a spiteful cur
1:23:02 | the Savior the former hero is flying like a mangy sheepdog in his Lackey and their Lackey was tearing at him and I
1:23:11 | should never forgive you for the tears I could not help shedding before you just now like some silly woman put the shame for what I am confessing to you now I
1:23:18 | shall never forgive you either coz I am a braggart nasty stupid absurd as most envious of all the worms on earth I'm
1:23:27 | not a bit better than I am but the devil knows why I never put to confusion while I shall always be insulted by every louse that is my doom what is it to me
1:23:37 | that you don't understand a word of this what do I care what do I care about you and whether you go to ruin there or not
1:23:44 | God as you're hatin after saying this for having been here and listening like that once in a lifetime a man speaks out
1:23:51 | like this and then in this in hysterics what more do you want from me why do used to sit there confronting me after
1:23:59 | office why are you worrying me why won't
1:24:03 | you go he won't let me I can't be good
1:24:12 | huh
1:24:28 | quarter of an hour later I went up to the screen and peeped through the crack at Liza she was sitting on the ground with her head leaning against the bed
1:24:36 | and must have been crying but she did not go away this time she understood it
1:24:42 | all I had insulted her finally she realized that my outburst of passion had
1:24:49 | been simply revenge a personal hatred born of envy she now understood that I
1:24:57 | was a despicable man and what's worse incapable of loving her because for me
1:25:04 | loving meant showing my moral superiority I'm never in my life been able to imagine any other sort of love and have come to the point of sometimes
1:25:12 | thinking that love really consists in the write freely given by the beloved object to tyrannize for over her even in
1:25:20 | my underground dreams I did not imagine love except as a struggle I began it always with hatred and ended it with
1:25:27 | moral subjugation I never imagined that she had come not to hear fine sentiments
1:25:34 | but to love me because to a woman all Reformation all salvation from any sort
1:25:41 | of ruin all moral renewal is included in that love and can only show itself in that form I did not hate her so much it
1:25:52 | was only insufferably oppressed her being here I just wanted her to disappear I wanted peace just to be left alone in
1:26:01 | my underground world this real life oppressed me so much I could hardly breathe suddenly she sprang up and flew
1:26:11 | the secret code as though making her escape I seized her hand open it thrust something in and closed it again as she flew out the door Liza Liza I heard her
1:26:21 | footsteps lower down the stairs Liza I heard the stiff outer glass door open heavily with a creaking and slam
1:26:29 | violently she had gone I went back to my room there on the floor was the crumpled blue
1:26:37 | five ruble note I thrust into her hand a moment before she managed to fling it to the furthest corner it flew like a madman to dress and ran
1:26:46 | headlong after her she could not have got 200 paces away when I came to the street there was no one no sound I ran
1:26:55 | to the crossroads and stopped where'd she gone and why was i running
1:27:02 | after her to fall down before her to solve with remorse to kiss her feet to
1:27:08 | entreat her forgiveness what for oh how do I not recognize that day for the hundredth time what I

was worth will it
1:27:17 | not be better that she should keep the resentment of my insult forever resentment well hi it's a purification
1:27:25 | it is the most stinging and painful consciousness tomorrow I should have defiled her soul and exhausted her heart
1:27:33 | while now the feeling of insult will never die and however loathsome the filth awaiting or the feeling of insult will elevate and
1:27:41 | purify her perhaps to forgiveness well all that make things easier for her though
1:27:48 | and indeed which is better cheap happiness or exalted sufferings well
1:27:57 | which is better so I dreamed as I sat at
1:28:04 | home that evening almost dead with the pain in my soul never had I endured such suffering and remorse and yet could
1:28:13 | there have been the faintest doubt when I ran after her that I should turn back half way I never met Liza again and I've
1:28:22 | heard nothing other even now so many years later all this is somehow a very evil memory I have many evil memories
1:28:32 | now but haven't I better in my notes here I believe I made a mistake in beginning to write them anyway I felt a
1:28:39 | shame all the time I've been writing this story so it's hardly literature as much as corrective punishment why to
1:28:47 | tell long stories show I have ruined my life through morally rotting in my corner through lack of a
1:28:54 | fitting environment to divorce from real life and rankling spite in my underground world certainly would not be interesting
1:29:01 | a novel needs a hero and all the traits of an antihero are expressly gathered
1:29:08 | together here and what matters most it all makes an unpleasant impression but
1:29:15 | we're all divorced from life we're all cripples every one of us more or less ripp so divorced from it that we feel and once a sort of loathing of real life
1:29:24 | and so cannot bear to be reminded of it why we've come almost looking upon real life as an effort it's hard work and
1:29:31 | we're all privately agreed that it's better in books why do we us and fume
1:29:38 | sometimes why are we perverse and ask for something different we don't know what ourselves it would be worse for us if our petulant prayers were answered
1:29:45 | come try give any one of us for instance a little more independence untie our hands widen the spheres of our activity
1:29:53 | relax the control and we yes I assure you we should be begging to be under control again at once yeah I know you
1:30:02 | will very likely be angry at me for that now and begin shouting and stamping will you speak for yourself you will say and for your miseries and your underground
1:30:09 | holes and don't dare to say all of us excuse me ladies and gentlemen I am NOT justifying myself without all of us as for what concerns me in particular well
1:30:18 | I'm only in my life carried to an extreme what you have not dared to carry halfway and what's more you've taken your cowardice for good
1:30:26 | sense and if found comfort in deceiving yourself so that perhaps after all there's more life in me than you look
1:30:34 | into it more carefully why we don't even know what living means now what it is what it is called leave us alone without books and we
1:30:42 | shall be lost and in confusion at once we shall not know what to join on to what took cling to what to love what to hate but to respect what the despised
1:30:50 | were oppressed at being men men with a real individual body and blood were ashamed of it we think it a disgrace and
1:30:58 | tried to contrive to be some sort of impossible generalized man we're still bored and four generations
1:31:06 | past it but be God not by living fathers and that suits us better and better we're developing a taste for it soon we
1:31:16 | shall contrive to be born somehow from an idea hmm but enough

1:31:33 | I don't want to write more from underground
